

BASIS exhibits at CeBIT

BASIS International and BSG Software GmbH, our German subsidiary, exhibited at CeBIT in Hannover, Germany. Several of BASIS and BSG Software GmbH's partners exhibited with BASIS, allowing developers to learn about the many options available for deploying solutions built on BASIS technology. Considered the world's largest IT and telecommunications event, CeBIT 2003 attracted approximately 600,000 attendees.

From the far right, Herbert Schmitz and Falk Spitzberg with BASIS's German subsidiary, BSG Software GmbH, discuss new features of BBj 3.0 with customers attending CeBIT.

View of main entrance to exhibit hall #3 at CeBIT. The BASIS logo is in the far background.
